POLICY 7-1.1 SCHOOL BOARD AUTHORITY TO REGULATE STUDENTS

Virginia and federal law give the Hanover County School Board the power to make reasonable rules for the (1) governance of the schools, (2) management of the Board's business, and (3) supervision of the schools, including the regulation of student conduct while students are on school property, attending or participating in school activities and going to and returning from school.

LEGAL REFERENCE: Code of Virginia, 1950, as amended, § 22.1-78.

POLICY 7-1.2 EQUAL EDUCATIONAL OPPORTUNITIES

The Hanover County Public Schools' educational programs and services shall be designed to meet the varying needs of all students and shall not discriminate against any individual for reasons of race, religion, color, gender, national origin, disability, or on any other basis prohibited by law. Further, no student shall, on the basis of gender, be excluded from participating in, be denied the benefits of, be limited in the exercise of any right, privilege or advantage, or be subjected to discrimination under any educational program or activity conducted by the school division. The School Board encourages school division employees, patrons and students to report promptly all incidents of alleged discriminatory conduct, including acts of harassment and bullying.

In furtherance of this Policy, the School Board shall: (i) provide facilities, programs and activities that are accessible, usable and available to qualified disabled persons; (ii) provide a free, appropriate education, including non-academic and extracurricular services to qualified disabled persons; (iii) not exclude qualified disabled persons, solely on the basis of their disabilities, from any preschool, daycare, adult education or vocational programs; and (iv) not discriminate against qualified disabled persons in the provision of health, welfare or social services.

Sexual Harassment

It is the policy of the School Board to maintain a working and learning environment for all of its employees and students which provides for fair and equitable treatment, including freedom from sexual harassment. No employee or student, male or female, shall harass another employee or student, male or female, by making unwelcome sexual advances or requests for sexual favors, or engaging in other verbal or physical conduct of a sexual nature when (1) submission to or rejection of such conduct is used as a basis for employment or academic decisions affecting the employee or student, (2) such conduct creates an intimidating, hostile, or offensive working or learning environment, or (3) submission to such conduct is made either explicitly or implicitly a term or condition of the individual's employment or participation in school programs. As used elsewhere in this policy, the term "harassment" specifically includes sexual harassment unless the context implies otherwise.

Student Complaints Regarding Discrimination

The division superintendent shall implement procedures for resolving complaints arising from alleged violations of Title IX of the Education Amendments of 1972, as amended, the Americans with Disabilities Act, and § 504 of the Rehabilitation Act of 1973.

The division superintendent shall designate at least one employee to coordinate the efforts of the school division to comply with and carry out its responsibilities for implementing the law, including investigation of any complaint of alleged noncompliance with the law or accompanying regulations. The school division shall notify students, parents of students and employees of the name, office address and telephone number of the Title IX compliance officer and the Section 504 compliance officer through the permanent, prominent display of posters prepared for this purpose, as well as any other appropriate communication channels, such as school handbooks and other school division publications.

The School Board shall implement specific and continuing steps to notify students and parents that it does not discriminate on the basis of gender in educational programs and activities and that it is required by Title IX not

to discriminate. The School Board shall implement specific and continuing steps to notify students and parents that it does not discriminate on the basis of disability in educational programs and activities.

Complaint Procedure

Any employee or student who believes that he or she has been subjected to discrimination, harassment, including sexual harassment, or bullying should file a complaint of the alleged act immediately with the appropriate compliance officer. The reporting party should use the form attached to this Policy as Regulation 7-1.2(A). If the complaint is against the compliance officer, the complaint shall be filed with the division superintendent. If the complaint is against the division superintendent, the complaint shall be filed with the chairman of the School Board. The compliance officer shall request that the complaint be in writing. Refusal to put the complaint in writing shall not preclude an investigation of the complaint. The complaint should state in detail the basis for the complaint, the names of the persons involved and the dates of any specific incidents.

Investigation

Complaints should be processed pursuant to this Policy and the accompanying regulations. However, nothing in this Policy shall deny the right of any individual to pursue other avenues of recourse to address concerns relating to prohibited discrimination, harassment, or bullying as authorized by applicable law.

The compliance officer, with the assistance of other appropriate school division administrators, shall immediately undertake a thorough investigation of all reported incidents to determine the nature and extent of any alleged discrimination, harassment, or bullying. The investigation shall be completed as soon as practicable, but not later than 14 calendar days after receipt of the report. The investigating administrators will observe and preserve the confidentiality of the reporting party provided it does not interfere with the investigation or with the ability to take corrective action.

The question of whether a particular action or incident is prohibited behavior requires a determination based on all the available facts in the matter. A written report shall be filed at the conclusion of any investigation of bullying, harassment, or discrimination regardless of the outcome of that investigation. Any employee or student with knowledge of the occurrence of bullying, harassment, or discrimination should notify the compliance officer, or the division superintendent or School Board chairman if the student or employee, for any reason, does not wish to report such an occurrence to the compliance officer.

Any administrator, teacher or other employee or student who is determined after appropriate investigation to have engaged in sexual harassment of another employee or student, or to have engaged in other prohibited behavior toward another employee or student, will be subject to disciplinary action appropriate to the offense, from a warning up to and including expulsion or discharge.

False charges of sexual harassment or other prohibited behavior shall be treated as a serious offense and those persons making false charges shall be subject to disciplinary action.

Retaliation against anyone reporting or thought to have reported sexual harassment, or other prohibited behaviors, is prohibited. Any individual filing a complaint of discriminatory behavior, including harassment and bullying, is assured that he or she will be free from any retaliation from filing such a complaint. Retaliators will be subject to discipline up to and including expulsion or discharge. Retaliation shall be considered a serious violation of this Policy and shall be independent of whether a charge or informal complaint of discriminatory behavior is substantiated. Encouraging others to retaliate also violates this Policy.

POLICY 7-1.4 STUDENT RECORDS

The Hanover County School Board shall maintain accurate and complete individual, permanent and cumulative records for every student enrolled in public schools. These records shall include cumulative and confidential information and shall be the student's official school record. Such records, identified as "education records" in Title 20, § 1232(g) of the United States Code and in Chapter 14 of Title 22.1 of the Code of Virginia, 1950, as amended, shall be maintained in compliance with all Federal and State law.

The superintendent or his designee(s) shall be responsible for the collection of data, record maintenance and security, access to, and use of records, confidentiality of personally identifiable information, dissemination of information from records, and destruction of records, including the destruction of personally identifiable information regarding a student with a disability, at the request of the parents. The superintendent shall also provide for notification of all school division personnel of policy and procedures for management of education records and notification to parents and students of their rights regarding student records, including the right to obtain, upon request, a copy of the Hanover County Public Schools' written policy and procedure on the management of the education records and their location. The superintendent or his/her designee shall be present for interpretation and explanation of student records when all parties have access to those records with the exception of designated

professional personnel within the school division. The superintendent shall provide for the periodic evaluation of records by the professional personnel and the removal of data no longer educationally useful. Parent(s) of students and eligible students shall be informed prior to destruction of records and provided a copy if desired.

Hanover County Public Schools shall provide a copy of this Policy on request to a parent or eligible student.

Definitions

As used in this Policy, the following definitions apply:

Student - any person who attends or has attended a school in the school division.

Eligible student - a student or former student who has reached age 18, is emancipated under Virginia law, or has complied with compulsory attendance requirements as set forth in the Code of Virginia, 1950, as amended.

Parent - either natural parent of a student, a guardian, an individual acting as a parent or guardian in the absence of the student's parent or guardian, or other person in the Commonwealth having control or charge of any child of school age as defined in the Code of Virginia, 1950, as amended.

Education records - any record (in handwriting, print, computer media, video or audio tape, film, microfilm, microfiche or other medium) maintained by Hanover County Public Schools or an agent of the school division which is directly related to a student, *except*:

1. A personal record kept by a staff member if it is kept in the sole possession of the maker of the record and is not accessible or revealed to another person except a temporary substitute for the maker of the record.
2. Records created and maintained for law enforcement purposes by the Hanover County Public Schools law enforcement unit, if any. A law enforcement unit is an individual, department or office of the school division that is authorized to enforce any state or federal law, report enforcement matters to appropriate authorities or maintain the physical security and safety of the school division.

4. Alumni records which contain information about a student after he is no longer in attendance in Hanover County Public Schools and which do not relate to the person as a student.

Education records include:

1. Court notice of adjudication as provided in § 16.1-305.1 of the Code of Virginia, 1950, as amended, if disciplinary action against a student is based upon an incident which formed the basis for the adjudication or conviction. Any notice of disposition shall not be retained after the student has been awarded a diploma or certificate.
2. Disciplinary record of action taken based on notice of adjudication as specified in number 1.
3. Any disciplinary action taken against a student for violation of school rules or policies occurring on school property or at school-sponsored events and information concerning disciplinary action taken against such student for conduct that posed a significant risk to the safety or well-being of that student, other students, or other members of the school community.

If disciplinary action is taken by the school division in regard to the incident upon which the adjudication or conviction was based, notice shall be provided to the parent or guardian in accordance with state law. With the consent of the parent or guardian, or in compliance with a court order, the school must also notify the court of the disciplinary action. If the school division does not take disciplinary action, every notice of adjudication or conviction received by the division superintendent, and information contained in the notice, shall be maintained by the division superintendent, and by any others to whom he disseminates it as permitted by law, separately from all other records concerning the student.

Dissemination of Information about Court Proceedings

Adjudications

The superintendent shall disseminate the notice or information regarding an adjudication of delinquency or conviction for an offense listed in § 16.1-260(G) of the Code of Virginia, contained in a notice received pursuant to § 16.1-305.1 of the Code of Virginia, 1950, as amended, to school personnel responsible for the management of student records and to other relevant school personnel, including, but not limited to, the principal of the school in which the student is enrolled. The principal shall further disseminate such information to licensed instructional personnel and other school personnel who (1) provide direct educational and support services to the student and (2) have a legitimate educational interest in such information.

Petitions

The superintendent shall not disclose information contained in or derived from a notice of petition received pursuant to Code of Virginia § 16.1-260 except as follows:

1. If the juvenile is not enrolled as a student in a public school in the division to which the notice was given, the division superintendent shall promptly so notify the intake officer of the juvenile court in which the petition was filed and may forward the notice of petition to the superintendent of the division in which the juvenile is enrolled, if known.
2. Prior to receipt of the notice of disposition, the division superintendent may disclose the fact of the filing of the petition and the nature of the offense to the principal of the school in which the student is enrolled if the division superintendent believes that disclosure to school personnel is necessary to ensure the physical safety of the student, other students or school personnel within the division.
3. After the student has been taken into custody, whether or not the student has been released, the principal may further disseminate the information only to those students and school personnel having direct contact with the student and need of the information to ensure physical safety, appropriate educational placement or other educational services.

Annual Notification

Parents will be notified of their rights under the Family Educational Rights and Privacy Act (FERPA) annually by publication in their child's student handbook published and distributed to students during the first week of each academic year.

The school division shall notify, at least annually, the parents of students in attendance (including those parents identified as having a primary or home language other than English) and eligible students in attendance (students who have reached age 18) by such means as are reasonably likely to inform them of their rights as follows:

1. the types and location of education records and information maintained therein;
 2. the title and address of the school official responsible for the maintenance of education records, the parties to whom data may be disclosed, and the purpose for disclosure;
 3. policies and procedures for reviewing and expunging education records;
 4. policies and procedures for disclosure of data from education records;
 5. the rights of parents and eligible students to review and challenge the content of education records and to file with the FERPA Office a complaint concerning an alleged failure by the school division to comply with 20 U.S.C. 1232g;
 6. the fee as established in this Policy to the parent or eligible student for reproducing copies of education records;
 7. the data designated in this Policy as directory information;
 8. the right of parents and eligible students to obtain, upon request, a copy of the school division's written policies and procedures on the management of the education records and the location of these records;
- and,

9. that it forwards scholastic records upon the request for the transfer of such records from another school division without providing written notice of the transfer to the parent, guardian, or other person having control or charge of the subject student, or to a student who is eighteen years old or older.

Procedure to Inspect Education Records

Parents of students or eligible students may inspect and review the education records relating to their children without unnecessary delay and before any meeting regarding an IEP or hearing involving a student with a disability. Further, parents shall have the right to a response from the school division to reasonable requests for explanations and interpretations of the education record. Parents or eligible students should submit to the student's school principal a written request which identifies as precisely as possible the record or records he or she wishes to inspect.

The principal (or appropriate school official) will make the needed arrangements for access as promptly as possible and notify the parents or eligible students of the time and place where the records may be inspected. Access must be given no later than 5 days from the receipt of the request.

When a record contains information about students other than a parent's child or the eligible student, the parent or eligible student may not inspect and review the portion of the record which pertains to other students.

When disciplinary action is taken by the school division in regard to an incident upon which an adjudication of delinquency or a conviction of acts specified in § 16.1-305.1 of the Code of Virginia, 1950, as amended, has been made, the parent or guardian must be notified of the action, the reasons therefore and his right to review and to request amendment of the student's education records. Every notice of adjudication or conviction received by the division superintendent and information in the notice which is not a disciplinary record, shall be maintained by the division superintendent and other school personnel separately from all other records concerning such student unless the school division takes disciplinary action based on an incident which was the basis for the adjudication or conviction.

Refusal To Provide Copies

Although the Hanover County Public Schools cannot deny parents access to their children's education records, the school division will not provide a parent or eligible student a copy of the student's education record unless failure to do so would effectively prevent the parent or eligible student the right to inspect and review the records.

Fees for Copies of Records

The fee for copies will be .25 per page. The actual cost of copying time and postage will be charged. Hanover County Public Schools shall not charge for search and retrieval of the records. Hanover County Public Schools shall not charge a fee for copying an Individualized Education Program (IEP) or for a copy of the verbatim record of a hearing conducted in accordance with the State Board of Education's Regulations Governing Special Education Programs for Children with Disabilities in Virginia.

Types, Locations, And Custodians of Education Records

Hanover County Public Schools shall provide parents, on request, a list of the types and locations of education records collected, maintained, or used by the school division.

Disclosure of Education Records

When parental consent is required in order to release a student's records and the parent refuses to give such consent, the division shall use informal means to secure the consent. If the parent continues to refuse to consent, the school division shall provide written notification to the person/agency requesting the information that parental consent is required and has been refused. If the school division wishes to disclose the information and has been

unable to secure the necessary consent through informal means, the school division may use more formal measures, as appropriate, to effect release of information.

Hanover County Public Schools shall disclose information from a student's education records only with the written consent of the parent or eligible student, *except*:

1. To school officials who have a legitimate educational interest in the records.

A school official is:

- a. A person employed by the School Board as an administrator, supervisor, instructor, or support staff member.
- b. A person appointed or elected to the School Board.
- c. A person employed by or under contract with the School Board to perform a special task, such as an attorney, auditor, medical consultant, or therapist.
- d. A person who is a teacher or school official, including teachers and school officials in other schools, who have legitimate educational interests in the student.

A school official has a "legitimate educational interest" if the official is:

 - b. Performing a task related to a student's education.
 - c. Performing a task related to the discipline of a student.
 - d. Providing a service or benefit relating to the student or student's family, such as health care, counseling, job placement, or financial aid.
2. To officials of another school, upon request, in which a student seeks or intends to enroll. Hanover County Public Schools shall provide written notice of the transfer including the identity of the requester to the parent, guardian or other person having control or charge of the student or to a student who is 18 years of age or older within five days of the date on which the record was transferred. This notice requirement applies to the transfer of records to education programs in jails and detention centers.
 3. To certain officials of the U.S. Department of Education, the Comptroller General, and state and local educational authorities, in connection with certain state or federally supported education programs.
 4. In connection with a student's request for or receipt of financial aid as necessary to determine the eligibility, amount, or conditions of the financial aid, or to enforce the terms and conditions of the aid.
 5. For the purpose of furthering the ability of the juvenile justice system to effectively serve the pupil prior to adjudication. The principal or his designee may disclose identifying information from a pupil's scholastic record to state or local law-enforcement or correctional personnel, including a law-enforcement officer, probation officer, parole officer or administrator, or a member of a parole board, seeking information in the course of his duties; an officer or employee of a county or city agency responsible for protective services to children, as to a pupil referred to that agency as a minor requiring investigation or supervision by that agency; attorneys for the Commonwealth, court services units, juvenile detention centers or group homes, mental and medical health agencies, state and local children and family service agencies, and the Department of Juvenile Justice and to the staff of such agencies. Prior to disclosure of any such scholastic records, the persons to whom the records are to be disclosed shall certify in writing to the principal or his designee that the information will not be disclosed to any other party, except as provided under state law, without the prior written consent of the parent of the pupil or by such pupil if the pupil is eighteen years of age or older.
 6. To organizations conducting certain studies for or on behalf of the school division.
 7. To accrediting organizations to carry out their functions.

8. To parents of an eligible student who claim the student as a dependent for income tax purposes.

11. Directory information so designated by the school division.

Military Recruiters and Institutions of Higher Learning

Hanover County Public Schools will provide, on request made by military recruiters or an institution of higher education, access to secondary school students' names, addresses, and telephone listings.

A secondary school student or the parent of the student may request that the student's name, address, and telephone listing not be released without prior written parental consent. The school division will notify parents of the option to make a request and will comply with any request.

The school division will provide military recruiters the same access to secondary school students as is provided generally to post-secondary educational institutions or to prospective employers of those students.

Record of Requests for Disclosure

Hanover County Public Schools shall maintain a record, kept with the education records of each student, indicating all individuals, agencies, or organizations which request or obtain access to a student's education records, except those who receive records with consent. The record will indicate the legitimate interest the party had in obtaining the information. The record of access will be available only to parents, to the school official and his assistants who are responsible for the custody of such records, and to persons or organizations which audit the operation of the system.

The requirements related to records of requests for disclosure stated above do not apply to requests made pursuant to an ex parte order issued by a court at the request of the United States Attorney General (or any Federal officer or employee, in a position not lower than an Assistant Attorney General, designated by the Attorney General) seeking to collect education records relevant to an authorized investigation or prosecution of international terrorism as defined in 18 U.S.C. § 2331 or other acts listed in 18 U.S.C. § 2332b(g)(5)(B).

Personal information will only be transferred to a third party on the condition that such party will not permit any other party to have access to such information without the written consent of the parents of the student. If a third party permits access to information, or fails to destroy information, the division will not permit access to information from education records to that third party for a period of at least five years.

Directory Information

Hanover County Public Schools shall notify parents and eligible students at the beginning of each school year what information, if any, the school division has designated as directory information, the right to refuse to let the school division designate any or all of such information as directory information and the period of time to refuse, in writing, the directory information designation, in accordance with FERPA.

Directory information may include the name, gender, address, telephone listing, date and place of birth, the student's major field of study, participation in officially recognized activities and sports, the weight and height of members of athletic teams, dates of attendance, degrees or awards received and photographs.

Correction of Education Records

Parents or eligible students shall be notified of their right to challenge the content of student records and to ask to have records corrected (including expungement) that they believe are inaccurate, misleading, or in violation of their privacy rights. Following are the procedures for the correction of records:

1. Parents or the eligible student must request in writing that Hanover County Public Schools amend a record. In so doing, they should identify the part of the record they want changed and specify why they believe it is inaccurate, misleading or in violation of the student's privacy or other rights.
2. Hanover County Public Schools shall decide whether to amend the record in accordance with the request within a reasonable period of time. If it decides not to comply, the school division shall notify the parents or eligible student of the decision and advise them of their right to a hearing to challenge the information believed to be inaccurate, misleading, or in violation of the student's rights.
3. Upon request, the school division shall arrange for a hearing and notify the parents or eligible student, reasonably in advance, of the date, place, and time of the hearing. The hearing shall be held within a reasonable period of time after the request.
4. The parent may be accompanied and represented by one or more individuals/attorneys.
5. The hearing shall be conducted by a hearing officer who is a disinterested party; however, the hearing officer may be an official of the school division. The parents or eligible student shall be afforded a full and fair opportunity to present evidence relevant to the issues raised in the original request to amend the student's education records in accordance with FERPA.
6. Hanover County Public Schools shall prepare a written decision which will include a summary of the evidence presented and the reasons for the decision.
7. If Hanover County Public Schools decides that the challenged information is not inaccurate, misleading, or in violation of the student's right of privacy, it will notify the parents or eligible student that they have a right to place in the student's official record a statement commenting on the challenged information and/or a statement setting forth reasons for disagreeing with the decision. The statement will be maintained as part of the student's education record as long as the contested portion is maintained.
8. If Hanover County Public Schools decides that the information is inaccurate, misleading, or in violation of the student's right of privacy, it shall amend (including expungement) the record and notify the parents or eligible student, in writing, that the record has been amended.
9. Hanover County Public Schools shall notify the parent and eligible student of their right to file with the FERPA Office a complaint concerning an alleged failure by the school division to comply with federal law.

Confidentiality of HIV And Drug And Alcohol Treatment Records

The school division shall comply with the confidentiality requirements of § 32.1-36.1 of the Code of Virginia, 1950, as amended, providing for the confidentiality of records related to any test for human immunodeficiency virus (HIV). In addition, the school division shall maintain confidentiality of drug and alcohol treatment records as required by federal and state law.

REGULATION 7-1.4:(A) STUDENT RECORDS

REGULATION 7-1.4 (B): ACCESS AND DISCLOSURE OF STUDENT RECORDS TO OTHER AGENCIES

REGULATION 7-1.4 (C): RECORDS MANAGEMENT

REGULATION 7-1.4 (A): STUDENT RECORDS

Transfer of Student Records

A school responding to a request for the transfer of the scholastic records from another school division need not provide written notice of the transfer of the record, including the identity of the requester, to the parent, guardian or other person having control or charge of the student, or to a student who is eighteen years of age or older, if the school has previously included in its annual notice a statement that it forwards such records to such requesting school divisions.

All personnel authorized access to student records shall be informed of these regulations. Strict adherence shall be a condition of employment by the Hanover County School Board.

Definitions

Student Records

The scholastic record shall be limited to data needed by the school to assist the student in his personal, social, educational, and vocational development and placement and be maintained in accordance with Regulations Governing Management of the Student's Scholastic Record in the Public Schools of Virginia.

Federal and state laws/regulations require the maintenance of confidentiality with reference to certain items in scholastic records. Virginia has elected to identify confidential information and file all cumulative data as follows: An Education Record shall be developed for every student including information regarding differentiated programs and/or special services, such as gifted, disabled, disciplinary information and court disposition records, etc.

Individual Notification

All parents and students shall be informed of their rights relative to the student's scholastic record. Parents and eligible students shall have an opportunity for a hearing before the principal to challenge the content of their child's records to ensure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student and to provide an opportunity for the correction or deletion of inaccurate, misleading, or inappropriate information therein and for the insertion of a written explanation of the parents respecting the content of the records.

All agencies of the Hanover Central Agency Referral Services shall receive annually copies of policies and regulations relating to management of student records.

Directory Information

The categories below are directory information and may be disclosed by the school if the parent has not filed a non-disclosure request. Parents have fifteen (15) administrative working days from the receipt of annual written and public notice to notify Hanover County Public Schools in writing that any part of or all of said directory information about their child shall not be released without prior consent. Directory information consists of 1) name of student in attendance or no longer in attendance including a student's age, gender, and date(s) of attendance; 2) participation in officially recognized activities and sports including a student's academic field of study; 3) height and weight, if member of athletic team; 4) awards and honors or degrees received by a student; 5) yearbook photographs; 6) the name, address, and telephone number of students may be released to military recruiters as permitted by law; 7) the name, address, and telephone number of students may be released to institutions of higher learning as permitted by law, and 8) names, addresses and honors received may be released to members of the Virginia General Assembly on request for the purposes of congratulatory communication only.

Publication of Student Records Policy

It shall be the division superintendent's responsibility to ensure that each school principal reports annually and on request to parents and students over eighteen years of age the following rights concerning student records:

1. To know the types and location of scholastic records that are kept;
2. To know the title and address of the official in charge of the records, the parties to whom data may be disclosed, and the purpose for disclosure;
3. To know the policies for reviewing and expunging scholastic records;
4. To know the policy and procedures for disclosure of data from scholastic records;
5. To challenge a record claimed to be false or misleading, and to a fair hearing if, after review, no change is made; to place a statement of rebuttal in the challenged record if no change is made; to file a complaint with FERPA (Family Educational Rights and Privacy Act) office of the United States Department of Education if they believe any of these rights (20 U.S.C. 1232g) are violated.
6. To receive a copy of the record at a reasonable cost as annually specified in the Parent-Student Handbook, not to exceed the cost of reproduction (search and retrieval fees shall not be charged). Such fee shall not effectively prevent the parents or their designee from exercising their right to inspect and review these records. There is no charge for IEPs. No search fee is charged for any special education records.
7. To know which data are designated as directory information;
8. To receive a response to a reasonable request for explanation and interpretation;

The Virginia Code requires that when a juvenile is adjudicated delinquent or convicted of certain crimes, the clerk of the court must provide written notice of the disposition ordered by the court to the division superintendent of the school division in which the child is enrolled at the time of the disposition or, if he is not then enrolled in school, the division in which he was enrolled at the time of the offense. This notice must be sent within fifteen (15) days of the disposition if an appeal has not been filed. Further disclosure of this information by the division superintendent to the school personnel is authorized only as provided in §22.1-288.2. Notices of disposition will be sent to superintendents when a student is convicted or adjudicated delinquent of one of the following crimes:

1. the unlawful purchase, possession or use of a weapon;
2. homicide;

1. if the student poses a danger to himself or others; or
2. to facilitate the student's appropriate educational placement or other educational services.

If disciplinary action is taken by the school division in regard to the incident upon which the adjudication or conviction was based, the school division must provide written notice to the parent, guardian or other person having control or charge of the student of the disciplinary action and the reason it was taken. With the consent of the parent or guardian, or in compliance with a court order, the school division must also notify the court of the action. In addition, the parent or guardian must be notified of his or her right to review and to request amendment of the student's education record.

Maintenance, Virginia Code §§22.1-288.2, 22.1-289

If school administrators or the School Board takes disciplinary action against a student based upon an incident which formed the basis for the adjudication or conviction, the court notice must become a part of the student's disciplinary record.

If the school division does not take disciplinary action, the notice and information contained therein must be maintained separate from all other records concerning the student. Further, if the notice refers to an incident which did not occur on school property or during a school-sponsored activity, it does not become part of the student's education record.

Retention, Virginia Code §22.1 - 289

Any notice of disposition shall not be retained after the student has been awarded a diploma or certificate.

Maintenance/Disposition of Data

1. Data shall be maintained and disposed of in accordance with Regulations Governing Management of the Student's Scholastic Record in the Public Schools of Virginia and the Hanover County Public Schools Records Manual. Any other data not included in this provision is destroyed five years after the student withdraws or graduates.

3. No scheduled school records shall be destroyed without the authorization of the division superintendent or designated records manager on appropriate forms developed by the Virginia State Library and Archives.

Access and Administration of Security

Each principal, or a designated professional, shall be responsible for student records content, maintenance, access, security, use and disclosure. All personnel having access to student records shall receive periodic training applicable in federal and state laws, regulations and policies and procedures for management of education records, and in security with emphasis upon privacy rights of students and parents. Student records are to be kept in a secure location in the individual school building in which the student is enrolled.

The principal of each school (see Parent-Student Handbook for address) is responsible for the records maintained within his school. Access to pupil records is limited to those persons as specified in the Virginia Code § 22.1-287 (see P 7-29), including: adult clerical personnel; eligible student; parent; principal or designee of the school the student attends, has attended, or intends to enroll; professional personnel (within school or school division); federal, state and local officials as authorized by law; and others who have the written permission of parent or eligible student. A current listing of names and positions of employees within the school division who

have access to student education records is available for inspection on request to the Assistant Superintendent of Human Resources. Both natural parents, regardless of custody status, have the right of access to all student records in the absence of a court or medical order to the contrary.

Eligible persons seeking access to cumulative records should notify the principal of the school attended by the student. Access will be arranged by the principal within five work days from the receipt of the request. Arrangements will be made for a staff member to be present to interpret the data if necessary. Parents who wish to have records released to specified individuals should request and authorize the release in writing.

Dissemination of Information Regarding Students

1. Directory Information - See School Board Policy 7-1.4 and definitions section, above.

3. When a student reaches the age of eighteen and no longer is attending Hanover County Public Schools, or is married (whether age eighteen or not), his consent alone must be obtained. This includes the right to deny parental access to his records.

Without prior written consent, student education record information shall be disclosed to school personnel, to appropriate persons in an emergency, for audits or approved research where personally identifiable information is excluded, to protective services personnel, or when requested if a student transfers to another school or post-secondary education. When the student record is transferred by request from another school division, the school shall provide written notice of the transfer, including the identity of the requester, to the parent, guardian, or other person having control or charge of the student, or to a student who is eighteen years of age or older within **five (5)** calendar days of the date in which the record was transferred.

The school shall transfer a student's record to the Department of Correctional Education when the division superintendent was notified that a student within the school division was enrolled in an education program in a learning center. This requirement also specifically applies to students who are in education programs in jails and detention centers. The Department of Correctional Education must notify the division superintendent when a student has been released from a learning center and transfer the student's education record to the school division within **five (5)** days of a request from the division superintendent or his designee. A record must be kept of all persons, agencies or organizations outside the school division requesting access to a student's record. The record must indicate the legitimate interest of the person making the request and whether or not it was granted.

Challenges to Records or Portions of Records

Eligible students and/or parents have a right to challenge records or portions of records which they believe to be incorrect. The right of challenge does not mean that any record so challenged must be changed or removed by school administrators. When such a challenge is not resolved to the complainant's satisfaction and a formal hearing is requested, the School Board shall conduct a review and or a hearing as described in Policy 7-1.4.

Transfer of Scholastic Records

Within the School Division

The record shall follow the student from school to school in order to show a pattern in the student's development.

Outside the School Division

When a student transfers to another school division or post-secondary education, a transcript of his record, to include academic achievement, standardized test data, cumulative health-physical fitness record, medical records, other pertinent information, etc., where appropriate, shall be sent promptly, upon request, to the appropriate official of the school in which he seeks or intends to enroll. The school transferring the data shall, prior to the transfer, notify the parent or eligible student of such a transfer and shall provide him with a copy of the record, if desired.

REGULATION 7-2.1(B) COMPULSORY ATTENDANCE

Annual notification shall include a description of the curriculum, limited to a list of subjects to be studied during the coming year.

Parents who begin home instruction or who establish residence in the school division during the school year shall provide written notice of their intention to educate their children at home as soon as practicable. Within thirty (30) days of providing such notice, the parents shall provide a description of the curriculum to be followed for the remainder of the school year and evidence of meeting one of the four legal requirements for providing home instruction listed above.

Within thirty (30) days of notification of intention to instruct at home, the division superintendent or his designee shall ensure that the parents have submitted evidence of having met one of the four requirements listed above.

Instruction in certain courses is required for a regular high school diploma, should a student who has previously received home instruction return to the Hanover County Public Schools. All graduates beginning shall have earned the units of credit, as required by the Standards of Quality and prescribed by the State Board of Education. All graduates shall have earned the standard and verified credits, as required by the Standards of Quality and prescribed by the State Board of Education.

Parents who anticipate their home-instructed child will return to the school division and proceed to graduate should include these subject areas in their home schooling curriculum and should confer annually with the assistant superintendent of instructional leadership to ensure compliance with the most current course requirements.

Hanover County Public Schools will not be required to place home instructed students who subsequently seek public school enrollment in specific grade level classes unless the required subject areas have been satisfactorily mastered, nor will Hanover County Public Schools be responsible for enforcing such course requirements on home-instructed students who may, at some future point, seek a regular high school diploma.

By August 1 following the school year in which children have received home instruction, the parents shall submit either (i) evidence that the children have attained a composite score in or above the fourth stannine on any nationally normed standardized achievement test, or an equivalent score on the ACT, SAT, or PSAT test; or (ii) an evaluation or assessment which the division superintendent determines to indicate that the child is achieving an adequate level of educational growth and progress, including, but not limited to: (a) an evaluation letter from a person licensed to teach in any state, or a person with a master's degree or higher in an academic discipline, having knowledge of the child's academic progress, stating that the child is achieving an adequate level of educational growth and progress; or (b) a report card or transcript from a community college or college, college distance learning program, or home-education correspondence school.

In the event that evidence of progress as required above is not provided by the parent, the home instruction program for that child may be placed on probation for one year. Parents shall file with the division superintendent evidence of their ability to provide an adequate education for their child in compliance with this regulation and a remediation plan for the probationary year which indicates their program is designed to address any educational deficiency. Upon acceptance of such evidence and plan by the division superintendent, the home instruction may continue for one probationary year. If the remediation plan and evidence are not accepted or the required evidence of progress is not provided by August 1 following the probationary year, home instruction shall cease and the parents shall make other arrangements for the education of the child which comply with § 22.1-254 of the Code of Virginia. These requirements shall not apply to children who are under the age of six (6) as of September 30 of the school year.

Any parent, guardian or other person having control or charge of a child being home instructed shall comply with immunization requirements provided in §§ 32.1-46 in the same manner and to the same extent as if the child has been enrolled and is attending school. For members of the School Board to consider a claim to exempt a child(ren) from compulsory attendance under the religious exemption statute, the following information is required to be provided to the division superintendent's office:

- A signed statement of faith from both parents or legal guardians indicating the religious training or belief on which the opposition to the child(ren)'s attendance in school is based. The statement should include substantiation that such beliefs are not essentially political, sociological or philosophical views or a merely personal moral code (22.1-254 (B)(1) Code of Virginia).

The following information is requested to be provided to the division superintendent's office:

- Name(s) or family relationship of child(ren) to the individual(s) making the claim and birth date(s) or age(s) of the child(ren).

- Letters from individuals whose identities can be verified and who have personal knowledge of the parents or guardians making the claim (such as, but not limited to, a pastor or church leader) in support of the parents' or guardians' claim.

Upon receipt, the claim is presented to the Hanover County School Board at its next regularly scheduled meeting. All claims should be received at least one week prior to the next regularly scheduled meeting. The individual(s) submitting the claim will be notified in writing of School Board action within two weeks of the School Board meeting.

The duration of the exemption is for all of the children in the family and will continue as long as the condition of religious training or belief exists.

Hanover County families who have been granted an exemption under the religious exemption statute may be contacted periodically by the division superintendent's office to determine any change in status.

POLICY 7-2.2 SCHOOL ATTENDANCE AREAS

The Hanover County School Board, upon the recommendation of the division superintendent, shall designate school attendance areas. The establishment of school attendance areas shall be based on the following criteria: (1) the number of students in the area, (2) the distance from home to school, (3) the age of the students and the grades attended, (4) geographic or hazardous conditions, and (5) such other guidelines as the School Board may determine.

Exceptions

Students must attend school in the attendance areas where their parents or guardians reside except as provided by the policy on transfers, below. However, the division superintendent is authorized to assign students to any school when necessary for reasons of instruction and/or to balance class sizes.

Student Transfers

1. Transfer within the School division. Transfers from school to school within the Hanover County Public Schools shall be permitted only with the express consent of the division superintendent's office and must be based upon, but not limited to, reasons of health, hardship or change in residence. When transfers within the school division take place, all the necessary student records shall be transferred consistent with applicable law. However, in all cases the school from which the student transfers shall maintain adequate and permanent records to identify the student and to show his grade classifications, the reason for transfer and the school to which the student transferred.

Students who have been the victim of a crime against the person, and when such crime was committed by (i) another student, (ii) an employee of the School Board, (iii) a volunteer, contract worker or other person who regularly performs services in the school, or (iv) if the crime was committed upon school property or on any school bus owned or operated by the school division, may request a transfer if, as a result, he suffered physical, psychological, or economic harm as a direct result of the crime.

2. Change in Residence. A student whose residence changes during the school year from one school attendance area to another attendance area in the school division generally will be permitted to continue in the school in which the student is presently enrolled for the remainder of the school year if the parent or guardian requests permission from the division superintendent and provides for the student's transportation to the receiving school.

3. School Board employees residing within Hanover County and who work in a school outside the attendance area where they reside, may be permitted, in cases of hardship, to enroll their child or children in a school outside their attendance area.
4. Transfers into the School division. Students new to this school division generally will be placed in the grade to which they were assigned by the last school or school system they attended. Home school students may be subject to testing for appropriate grade level and course placement. In addition, any transfer students may be eligible for Carnegie credit and or verified credit under Policy and Regulation 6-4.3: Promotion and Retention. If, after an appropriate period of time and testing, the student is found to be placed inappropriately, the student shall be reassigned to the class or grade for which he is most qualified. Principals shall communicate appropriately with parents on grade placement and the assignment of students. Students transferring from another public or private school system or home school allowing children to enter school prior to the age requirement in Virginia must be assigned in accordance with law.
5. Persistently dangerous schools. A student attending a school that has been designated as a persistently dangerous school by the Virginia Department of Education will be offered the opportunity to transfer to another school, which is not so designated, within the School Division. Such transfers may remain in effect as long as the student's original school is identified as persistently dangerous.

With written consent from the parent or adult relative, for the purposes of expediting enrollment, a school division may obtain such written verification directly from the local department or departments of social services. If the kinship care arrangement lasts more than one year, both departments of social services will be required to provide continuing verification that the parents are unable to care for the person and that the kinship care arrangement serves a legitimate purpose other than school enrollment.

"Temporary shelter" means (1) any home, single or multi-unit dwelling, or housing unit in which persons who are without housing or a fixed address receive temporary housing or shelter or (2) any facility specifically designed or approved for the purpose of providing temporary housing or shelter to persons who are without permanent housing or a fixed address.
7. When the person has been placed in a foster care placement within the school division by a local social services agency. The school division will accept only original documents for proof of residence. No copies or online printouts of such documents will be accepted. Copies of all documents presented for proof of residence will be retained in the student's cumulative file as part of the student's enrollment documentation.

Parents submitting a Multiple Family Disclosure form when registering their child must provide proof of county residency for the host family. The parent of the incoming student must provide two documents proving the parent's residency within 60 calendar days after registration.

ADDITIONAL ADMISSION REQUIREMENTS

- A. Except as otherwise provided below, no pupil shall be admitted for the first time to any public school in any school division in Virginia unless the person enrolling the pupil presents, upon admission, a certified copy of the pupil's birth record. The principal or his designee shall record the official state birth number from the pupil's birth record into the pupil's permanent school record and may retain a copy in the pupil's permanent school record. If a certified copy of the pupil's birth record cannot be obtained, the person so enrolling the pupil shall submit an affidavit setting forth the pupil's age and explaining the inability to present a certified copy of the birth record. If the school division cannot ascertain a child's age because of the lack of a birth certificate, the child shall nonetheless be admitted into the public schools if the division superintendent determines that the person submitting the affidavit presents information sufficient to estimate with reasonable certainty the age of such child. However, if the student is a homeless child or youth, the school shall immediately enroll such student, even if such student is unable to produce the records required for enrollment, and shall immediately contact the school last attended by the student to obtain relevant academic and other records.
- B. If a certified copy of the birth record is not provided, the administration shall immediately notify the local law enforcement agency. The notice to the local law-enforcement agency shall include copies of the submitted proof of the pupil's identity and age and the affidavit explaining the inability to produce a certified copy of the birth record.
- C. Within 14 days after enrolling a transfer student, the administration shall request documentation that a certified copy of the pupil's birth record was presented when the pupil was enrolled in the former school.
- D. Prior to admission to the Hanover County Public School Division, the parent, guardian, or other person having control or charge of the child shall provide, upon registration,
 - a sworn statement or affirmation indicating whether the student has been expelled from school attendance at a private school or in a public school division of the Commonwealth or another state for an offense in violation of school board policies relating to weapons, alcohol or drugs, or for the willful infliction of injury to another person. This document shall be maintained as a part of the student's scholastic record; and
 - a sworn statement or affirmation indicating whether the student has been found guilty of or adjudicated delinquent for any offense listed in subsection G of Va. Code § [16.1-260](#) or any substantially similar offense under the laws of any state, the District of Columbia, or the United States or its territories. This document shall be maintained by the superintendent and by any others to whom he disseminates it, separately from all other records concerning the student.

However, if the school administrators or the school board takes disciplinary action against a student based upon an incident which formed the basis for the adjudication of delinquency or conviction for an offense listed in subsection G of § 16.1-260, the notice shall become a part of the student's disciplinary record.

When the child is registered as a result of a foster care placement, the information required under this subsection must be furnished by the local social services agency or licensed child-placing agency that made the placement.

- E. This policy does not preclude contractual arrangements between the Hanover County School Board and agencies of the federal government or the school board of another jurisdiction to permit students not otherwise eligible to attend Hanover County Public Schools.
- F. Prior to admission, the student must document compliance with, or eligibility for exemption from, the preschool physical examination and immunization requirements contained in §§ 22.1-270, 22.1-271.2 and 32.1-46 of the Code of Virginia.

If the person enrolling a child who has been placed in foster care by a local social services agency and the placing social services agency is unable to produce any of the documents required for enrollment, the student shall be immediately enrolled; however, the person enrolling the child shall provide a written statement that, to the best of his knowledge, sets forth (i) the student's age, (ii) compliance with the requirements of Virginia Code § 22.1-3.2; and (iii) that the student is in good health and is free from communicable or contagious disease. In addition, the placing social service agency shall obtain and produce the required documents or otherwise ensure compliance with the statutory requirements for the foster child within 30 days after the child's enrollment.

If the person enrolling a homeless child or youth is unable to produce a report of a comprehensive physical examination and/or proof of immunization, the student shall be enrolled immediately; however the person enrolling the child shall provide an affidavit stating that, to the best of his or her knowledge, the child or youth is in good health and free from any communicable or contagious disease. The school division shall assist in obtaining the necessary physical examination and/or immunization of the child or youth by a clinic or physician's office.

Private and home-schooled students shall not be permitted to enroll part-time or to participate in academic or extracurricular activities in the Hanover County Public Schools.

Homeless Students

The Hanover County School Board is committed to educating homeless children and youth. Homeless children and youth are not stigmatized or segregated on the basis of their status as homeless. The school division will coordinate the identification and provision of services to such students with relevant local social services agencies and other agencies and programs providing services to such students, and with other school divisions as may be necessary to resolve interdivisional issues.

Hanover County Public Schools serves each homeless student according to the student's best interest and will:

- Continue the student's education in the school of origin, (1) for the duration of homelessness if the student becomes homeless between academic years or during an academic year, or (2) for the remainder of the academic year, if the student becomes permanently housed during an academic year; or
- Enroll the student in any school in the school division that non-homeless students who live in the attendance area in which the student is actually living are eligible to attend.

The decision regarding school placement shall be made regardless of whether the student lives with the homeless parents or has been temporarily placed elsewhere.

The term "school of origin" means the school that the student attended when permanently housed or the school in which the student was last enrolled.

The term “unaccompanied youth” includes a youth not in the physical custody of a parent or guardian.

REGULATION 7-2.3 (C) STUDENT IMMUNIZATIONS

Before entering a Hanover County public school for the first time, every pupil shall furnish a certificate confirming that the pupil has been immunized against communicable diseases as required by §§ 32.1-46, 22.1-271.2 and 22.1-271.4 of the Code of Virginia, has begun receiving the first series of all such vaccinations, or is exempt as provided elsewhere in this regulation. Any parent, guardian, or other person having control or charge of a child being home instructed or exempted or excused from school attendance shall comply with state immunization requirements.

Conditional Enrollment

A student may be enrolled for a period of 90 school days contingent upon the student's having received at least one dose of each of the required vaccines and the student's possessing a plan, from a physician, registered nurse or employee of a local health department, for completing his immunization requirements within the ensuing 90 school days; except that a student who has not yet received a second dose of measles (rubeola) vaccine must receive such second dose pursuant to the Virginia Board of Health's minimum immunizations required for school attendance.

Exemptions

1. When the parent or guardian has an objection on the grounds that the administration of immunizing agents conflicts with his religious tenets or practices and provides the principal with a written statement of such objection, unless an emergency or a disease epidemic has been declared by the Virginia Board of Health.

2. When the parent or guardian presents a statement from a physician or a local health department that states that the physical condition of the child is such that the administration of one or more of the required immunizing agents would be detrimental to the health of the child.

Evidence of Immunization

Evidence acceptable for proof of required immunizations must include the month, day, and year each dosage was administered on forms developed by or approved by the Virginia Department of Health. All students for whom immunization dates cannot be provided (month, day, year) must be referred to the local health department or their private physicians to update their records before entering school.

REGULATION 7-2.3 (D) PHYSICAL EXAMINATIONS OF STUDENTS

Before any child is admitted for the first time to any public preschool, kindergarten, or elementary school (grades K-6), such child must furnish a report from a qualified licensed physician or a licensed nurse practitioner acting under the supervision of a licensed physician, of a comprehensive physical examination of a scope as prescribed by the Virginia Health Commissioner, performed within the twelve (12) months prior to the date such child first enters kindergarten or elementary school. At the end of such report shall summarize abnormal physical findings, if any, and shall specifically state what, if any, conditions are found that would identify the child as disabled.

1. A copy of such report must be presented to the school on the child's behalf.
2. The report must indicate that the child has received the physical examination no earlier than 12 months prior to the date of first entering kindergarten or elementary school.
3. Transfer students entering a Hanover County elementary school must provide one of the following:
 - a. Records establishing that a physical examination was completed prior to enrolling in another school (evidence of such an examination may be: (a) a copy of the report of the medical examination or (b) transcript notation or phone verification from the other school with records to follow); OR
 - b. A report of a physical examination dated within the last 12 months.
4. Physical examination reports shall be placed in the child's health record at the school.
5. A physical examination shall not be required of any child whose parent or guardian objects on religious grounds and who shows no visible evidence of sickness. The parent or guardian shall state in writing that, to the best of his knowledge, the child is in good health and free from any communicable or contagious disease.
6. The school division shall coordinate with the Hanover County Department of Health to conduct physical examinations for medically indigent children, upon request, before their admission to any kindergarten or elementary school, without charge to the children or their parents or guardians.
7. Parents/guardians of students entering school shall complete a health information form as required by state law. Failure to return the form as required by state law may result in the child's exclusion from school.

Amended: April 12, 2002

POLICY 7-2.4 STUDENT ATTENDANCE AND ABSENCES/TRUANCY

With the support from their parents, Hanover County public school students are expected to accept responsibility for good attendance. School attendance is related directly to academic achievement and the development of good habits which are important in college and employment. Student attendance is a cooperative effort involving the school, parents and students.

Students shall attend school for a full day unless otherwise excused. Secondary students shall be scheduled for a full school day unless they are enrolled in a cooperative work-study program. All other exceptions to a full-day schedule must be approved on an individual basis by the division superintendent or his designee.

During any one school year, students shall not be absent for more than twenty (20) school days for elementary (grades K-5) or twenty (20) single class periods of any one class or ten (10) blocks of any one alternate day schedule class for secondary (grades 6-12) with the exception of those days, class periods or blocks missed due to scheduled school activities. Students who do not meet attendance requirements may not receive academic credit.

Students who are absent to observe a religious holiday will be excused upon presentation of written verification from the student's parent/guardian. No student will be deprived of any award, eligibility or opportunity to compete for any award, or the right to take an alternate test or examination the student missed by reason of such verified absence.

Schools shall make a reasonable effort to contact a parent/guardian of each absent student every day, and to obtain an explanation of the student's absence where there is no indication that the student's parent(s) is aware of and supports the absence. Schools shall keep a log of call attempts. Students who are absent must have a valid communication from parent/guardian stating the reason for absence upon returning to school. Unexcused absences shall be handled according to regulations issued by the division superintendent. Student attendance shall be monitored and reported as required by state law and regulations.

If (1) a student fails to report to school for a total of five scheduled school days for the school year, (2) there is no indication that the student's parent(s) is aware of and supports the absence, and (3) reasonable efforts to notify the parent of the absences have failed, then the principal or designee shall make a reasonable effort to ensure that direct contact is made with the parent, either in person or through telephone conversation, by the attendance officer to obtain an explanation of the pupil's absence and to explain to the parent the consequence of continued nonattendance. The attendance officer, the pupil, and the pupil's parent shall jointly develop a plan to resolve the pupil's nonattendance. Such plan shall include documentation of the reasons for the pupil's nonattendance. If the student's parents have joint physical custody of the student and the school has notice of the custody arrangement, then both parents shall be notified at their last known addresses. If the parent(s) fail to comply with the principal's or designee's request within three (3) school days, the principal or designee shall notify the attendance officer or division superintendent who shall enforce the school compulsory attendance rules.

Sixth Absence Without Parental Awareness and Support

If the pupil is absent an additional day after direct contact with the pupil's parents and the attendance officer has received no indication that the pupil's parent(s) is aware of and supports the pupil's absence, the attendance officer shall schedule a conference within ten (10) school days, which must take place no later than the fifteenth school day after the sixth absence. At the conference, the pupil, his parents, and school personnel shall meet to resolve issues related to the pupil's nonattendance. Other community service providers may also be included in the conference.

Additional Absence Without Parental Awareness and Support

Upon the next absence after the conference without indication to the attendance officer that the pupil's parent(s) is aware of and supports the pupil's absence, the principal or designee shall notify the attendance officer or school division superintendent who shall enforce the compulsory attendance rules by either or both of the following: (i) filing a complaint with the Hanover County Juvenile and Domestic Relations and District Court alleging the pupil is a child in need of supervision as defined in Virginia Codes § 16.1-228 or (ii) instituting proceedings against the

parent pursuant to Virginia Codes § 18.2-371 or § 22.1-262. In filing a complaint against the student, the attendance officer shall provide written documentation of the efforts already undertaken to resolve the pupil's absence. If the student's parents have joint physical custody of the student and the school has notice of the custody arrangement, then both parents shall be notified at their last known addresses.

Parental Cooperation in Remediating Excessive Unexcused Absences

It is expected that parents will cooperate with the attendance officer and other school officials to remedy the student's attendance problem. Where direct contact with a parent cannot be made, despite reasonable efforts, or where parents otherwise fail to cooperate in remediating the student's attendance problem, the division superintendent or his designee may seek immediate compliance with the compulsory school attendance laws. The attendance officer, with the knowledge of the division superintendent, shall institute proceedings against any parent who fails to comply with the requirements of the compulsory attendance laws. Where the complaint arises out of the parent's failure to comply with the requirements of Virginia Code § 22.1-258, the attendance officer shall document the school division's compliance with this Code section.

Credit for make-up work will be granted only for absences which are pre-approved in writing, or with a written note from the parent when the student returns to school. Medical documentation may be required at the principal's discretion. Under certain conditions a waiver of these attendance policies may be considered by the division superintendent. *See Regulation 7-2.4.*

Attendance Records/Pupil Accounting Records

One of the most important records that teachers are required to keep is the teacher's "register," otherwise known as the daily attendance register. The purposes of the register are for proper pupil accounting in the instructional program, for school administration, and for the distribution of major state school funds. Hanover County public school teachers shall maintain attendance registers in accordance with state law. At the end of each school year, each public school principal shall report to the division superintendent the number of pupils by grade level for whom a conference was scheduled pursuant to this Policy. The division superintendent shall compile this information and provide it annually to the division superintendent of public instruction.

Dismissal Precautions

Principals shall not release a student during the school day to any person not authorized by the student's parent/guardian to assume responsibility for the pupil. Students shall be released only on request and authorization of the parent or guardian. The burden of proof regarding the authority of the person to receive the student is on the requesting party. A formal check-out system shall be maintained in each Hanover County public school.

ACCOMPANYING REGULATIONS:

- 7-2.4 (A) TRUANCY
- 7-2.4 (B) STUDENT ABSENCES
- 7-2.4 (C) TRUANCY REFERRALS
- 7-2.4 (D) REGULATIONS FOR KEEPING REGISTERS

REGULATION 7-2.4 (A): TRUANCY

Hanover County residents of school age shall attend their assigned schools during school days and hours in accordance with the compulsory attendance laws of the Commonwealth of Virginia, § 22.1-254 et seq. of the Code of Virginia. Parents or guardians having control of a child must comply with these laws and violation of the law will subject the parent or guardian to prosecution. The division superintendent or his designee and the principal of each school shall be responsible for maintaining accurate records of attendance and for monitoring all absences.

Truancy is defined as the absence of a student for which neither the parent nor the school had prior knowledge and consent. The principal may exercise discretion in identifying an absence as a truancy, although the absence occurs with parental knowledge or consent. When the student is truant, the school authorities shall notify parents or guardian(s) of this truancy. Corrective action will be taken by the school authorities when truancy occurs.

REGULATION 7-2.4 (B): STUDENT ABSENCES

All elementary school students, grades K-5, shall not be absent from school for more than twenty (20) days in order to receive academic credit for the grade or subject(s) in which enrolled.

All middle school students, grades 6-8, shall not be absent from school for more than twenty (20) single class periods for any one class or ten (10) blocks of any one alternate day schedule class in order to receive academic credit for the grade or subject(s) in which enrolled.

All high school students, grades 9-12, shall not be absent from school for more than twenty (20) single class periods for any one class or ten (10) blocks of any one alternate day schedule class in order to receive academic credit for the grade or subjects(s) in which enrolled.

Absences resulting from out-of-school suspension may not be counted as absences against the twenty (20) day limit for elementary and twenty (20) single class periods or ten (10) blocks for secondary; however, the student may be required to make-up work missed during the period. (See *Code of Student Conduct*.)

Students who transfer from other school divisions are not penalized for absences prior to the day of enrollment in a Hanover County public school; however, the transfer student may not be absent for more than the pro-rated share of the twenty (20) days for elementary or twenty (20) single class periods for any one class or ten (10) blocks limit of an alternate day schedule class. For example, if a student enters on day 90, he may not be absent for more than ten (10) days for elementary, ten (10) single class periods or five (5) blocks for secondary. When a student transfers within the Hanover County, the number of absences is transferred and applied toward the maximum allowable number. Residents of Hanover County who enter school late may be required to make up school work/time or to have the days counted toward the maximum allowable of twenty (20) days for elementary or twenty (20) single class periods or ten (10) blocks for secondary.

Under certain conditions a waiver of these attendance policies may be considered by the division superintendent.

Conditions for a Waiver

The student and his parent(s) or legal guardian(s) may request a waiver in writing at any time during the school year during which an attendance violation occurs or up to the first day of school for students of the next school year. The correspondence shall be directed to the division superintendent or his designee and shall include: a) the total number of student absences, b) the reason(s) for the absences, and c) the conditions under which a waiver is being sought, e.g. medical hardship, extenuating education circumstances, or a transfer situation.

A waiver may be granted by the division superintendent or his designee for the following reason(s): 1) medical hardship (condition whereby a student could not attend as certified by a licensed physician), 2) extenuating educational circumstances as determined by a committee appointed by the division superintendent or his designee or a special education eligibility committee, or 3) transfer situations as approved by a committee appointed by the division superintendent or his designee. The provisions for the waiver may include submission of missed work as outlined in a contract signed by the student, parent(s) and/or legal guardian(s), committee chairman, and school principal.

Notification of Parents

All elementary schools, grades K-5, shall monitor student attendance and shall report absences to students and parents/legal guardians. Attendance reports may accompany deficiency notices and/or report cards.

All middle schools, grades 6-8, shall monitor student attendance and shall report absences both by day and by individual class periods or blocks to students and parents/legal guardians. Attendance reports may accompany deficiency notices and/or report cards.

All high schools, grades 9-12, shall monitor student attendance and shall report absences both by day and by individual class periods or blocks to students and parents/legal guardians. Attendance reports may accompany deficiency notices and/or report cards.

When a student reaches the maximum of twenty (20) days absence from elementary school, or twenty (20) single class periods of any one class or ten (10) blocks of any one alternate day schedule class for secondary schools, the school shall notify the student and parent(s)/legal guardian(s). Initial notification may be verbal; however, it shall be followed by written notification within three (3) school days. A copy of the notification shall be placed in the student's file.

3. develop an alternative education plan which includes: a) description of the program, b) maximum number of credits that can be awarded, c) maximum number of absences, and d) conduct conditions. The alternative plan must be approved by the principal and the division superintendent or his designee. A contract signed by the principal, parent(s) or guardian(s), student and division superintendent or his designee shall govern the program.

3. Class Rank: The grade(s) earned by a student who does not receive academic credit (a Carnegie unit) because of violation of Regulation 7-2.4 (B) shall not be calculated into the grade point average.

REGULATION 7-2.4 (C): TRUANCY REFERRALS

For a student absent from school for five (5) days without parental awareness and support of the absence, the principal or attendance secretary shall make reasonable effort to make direct contact with the parent(s) (either in person or through telephone conversation) to obtain an explanation for the student's nonattendance. The attendance secretary, in addition to the daily telephone calls made by the county automated telephone system, will mail a letter to the parent(s). The principal and/or attendance secretary, parent(s) and student shall develop a plan to resolve nonattendance. Such plan shall include documentation of the reason(s) for the pupil's nonattendance. If the parent(s) fails to comply with the principal's or attendance secretary's request within three (3) school days, the case shall be referred to the school social worker for enforcement of compulsory attendance rules.

If the pupil accrues a sixth absence without parental awareness and support, a school attendance conference shall be requested and scheduled by the school social worker within ten (10) school days, which must take place no later than the fifteenth school day after the sixth absence. An intervention plan will be developed and implemented. An attendance agreement will be created with assistance from the guidance counselor and other appropriate staff. The school social worker will make any appropriate referrals to county agencies or interdisciplinary teams.

Upon the next absence after the conference without indication to the principal, attendance secretary or school social worker that the pupil's parent is aware of and supports the pupil's absence, the school social worker may refer the case to the Student Support Attendance Coordinator.

The Student Support Attendance Coordinator will receive documentation of all truancy referrals and all school interventions regarding the student, including: contacts made with the student or parent, lists of excused and unexcused absences, copies of excuse notes, disciplinary history, and eligibility status and accommodations. Truancy referral documentation will follow flowchart procedures (see attached) to satisfy guidelines of the Hanover County Court Services Unit (Juvenile Probation). Truancy referrals with incomplete documentation will be returned to the school social worker for monitoring.

The Student Support Attendance Coordinator shall enforce compulsory attendance requirements (Virginia Code § 22.1-254, et seq.) by either or both of the following: (1) filing a complaint with the Hanover County Juvenile and Domestic Relations District Court alleging the student is a child in need of supervision as defined in Virginia Code § 16.1-228 or (2) instituting proceedings against the parent(s) pursuant to Virginia Code § 18.2-371 or § 22.1-262. In filing the complaint against the student, the attendance coordinator shall provide written documentation of the efforts already undertaken to resolve the pupil's nonattendance. Such filings occur after review and approval by the Director of Special Education, where appropriate.

After initiating court intervention, the Student Support Attendance Coordinator shall monitor active cases and report to the referring school, in an effort to support a plan for improved attendance and academic success.

NOTE: The County automated system will be activated and utilized for the high schools and middle schools. Elementary school personnel will continue to make direct phone calls for daily absences.

General Procedures

The principal shall submit to the Director of Special Education the names of those students for whom no follow-up information can be obtained on the ten-day non-enrollment report.

The Director of Special Education shall forward the ten-day non-enrollment reports to the appropriate school social worker who shall review the ten-day principal's report of non-enrolled children and identify potential truants.

At the end of the first semester, a list of all students absent for fifteen (15) cumulative days shall be submitted to the Director of Special Education for review with the school social workers. Each secondary school shall be visited by the school social workers on a regularly scheduled basis. Any student may be referred to a school social worker for non-attendance at any time.

REGULATION 7-2.4 (D): REGULATIONS FOR KEEPING REGISTERS

At the close of each pupil accounting register period (monthly), the teacher should carefully check each register, with particular emphasis on aggregate days attendance and membership for each pupil. At the end of the school term, the register should be checked again, with particular emphasis on total aggregate days' attendance and membership.

Periodic Checks

1. Attendance registers are to be maintained on a daily basis. These records must be available for immediate inspection by school administrators.
2. Upon request, registers shall be submitted to the principal at the close of each pupil accounting period.
3. At the end of the school term, registers must be approved by the principal's office as one item on the teacher's checklist for the closing of school.

Retention

Teacher's registers shall be retained indefinitely.

Procedures for Maintaining Student Records of Students Who Withdraw from Hanover County Public Schools

All students enrolled in and/or withdrawn from Hanover County Public Schools must be accounted for with respect to school placement.

Students who withdraw during the school year

Students who withdraw during the school year and move to another school district either in-state or out-of-state, should have a request for records from the next school district. Students are withdrawn from Hanover County Public Schools on the day after the parent request for withdrawal. Records should be maintained for the student's subsequent school of the enrollment. Verification can be met either through a request for records from the next school, or a phone call for verification to the school. Verification should be completed within 10 days of the student's withdrawal from Hanover County Public Schools and information regarding the next student placement placed in the student's file.

Students who withdraw at the end of the school year

Students who do not re-enroll in Hanover County Public Schools for the following school year should have a request for transcripts and records by another school division, or a letter should be on file for a parent who may have requested for their child to be home schooled. Verification should be completed no later than 15 days after the opening of the subsequent school year. At the end of 10 school days, if a student has not enrolled for the subsequent year in Hanover County Public Schools, and no official request has been for records, the principal will turn the list of student names over to the Lead Social Worker for further investigation.

All principals are responsible for verifying the location of a child who has withdrawn from his/her school and relocates to another school or does not re-enroll for the subsequent school year. Documentation can be made in the form of maintaining a notebook for student enrollments and withdrawals, or a similar process.

TABLE OF CONTENTS

7-31 [CODE OF STUDENT CONDUCT](#)

7-3.1 CODE OF STUDENT CONDUCT

Philosophy

Recognizing the importance of the dignity and worth of each individual, the Hanover County School Board believes that it should provide an atmosphere of mutual respect conducive to teaching and learning in which intellectual, physical, emotional, and social growth complements the moral and spiritual needs of the student population. Students, parents, administrators, teachers and all other staff members are responsible for maintaining a school environment in which educational programs can prosper and extracurricular programs can be provided for the benefit of all participants.

Student Rights and Responsibilities

A student has all rights expressed and guaranteed by the United States Constitution and by federal, state, and local laws. These rights do not permit a student to disrupt the educational process, to break school rules, to present a health or safety hazard, or to disregard directions of those in authority. Individual rights do not include infringing upon the rights of others in the school community.

To the extent permitted by applicable law, students have the right to the following:

- a public education without regard to gender, race, religion, national origin, or any reason not related to their individual capabilities;
- an orderly school and classroom environment which will allow optimum learning, emphasizing the values of responsibility, kindness, fairness, and safety; and
- freedom of expression in speech, writing, or symbols, consistent with their constitutional rights and School Board policy.

Students have the primary responsibility to maintain a climate of mutual respect and trust in order that the dignity of the individual be protected and the pursuit of opportunities for each student be realized.

Students are responsible for the following:

- knowing and complying with any rules or regulations of the School Board, as well as local, state, and federal laws;
- attending school regularly, equipped with the materials needed to attend class and complete class assignments and/or requirements; and
- contributing to a climate of mutual respect for all within each school so that the hopes and ambitions of all individuals may be realized.

Disciplining Students with Disabilities

Disciplinary actions for students with disabilities will be determined in accordance with all relevant state and federal laws and regulations. Regulations Governing Special Education Programs for Children with Disabilities are available from the Virginia Department of Education Web site at <http://www.doe.virginia.gov/>. Additional information concerning disciplinary actions for students with disabilities is available in the Section 504 Handbook, accessible at <http://www.hcps.us/instruction/sped/Section%20504%20Handbook%2020-071415.pdf>.

Parental Rights and Responsibilities

Each parent/guardian has the duty to assist the school in enforcing the *Code of Student Conduct* and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property, and supportive of individual rights. Any school principal may request a student's parent/guardian (or parents, if both parents have legal and physical custody of such student) to meet with the principal or his designee to review the *Code of Student Conduct* and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with the compulsory school attendance law, and to discuss improvement of the child's behavior and educational progress.

Due Process

Students facing suspension have a property right to an education guaranteed under the 14th Amendment which may not be taken away without due process. For suspensions of ten (10) days or less, the student must be given oral or written notice of the charges and, if he/she denies them, an explanation of the evidence and an opportunity to present his/her side of the story.

Virginia law requires more due process than required by the Constitution. Virginia law requires the following requirements for suspensions of “not more than ten days”:

- oral or written notice to the student of the charges against him/her;
- if he/she denies them, an explanation of the facts and the opportunity to present his/her version;
- notification of the facts in writing by the administrator to the division superintendent or designee and to the parent(s)/guardian; and
- if requested by either party, a review of the facts of the case by the superintendent or his/her designee to “confirm or disapprove” the action.

Virginia law requires the following due process for suspensions of longer than ten (10) days:

- written notice to the students and his/her parent(s)/guardian stating the proposed action, reasons for it, and a statement that the suspension can be appealed to the superintendent or his/her designee.

Expectations for Student Conduct

An open, engaging, challenging atmosphere is most conducive to the educational experience of all members of the school community. Therefore, students are expected to do the following:

- cooperate in the creation and maintenance of a healthy learning environment;
- conduct themselves in a safe and orderly manner;
- respect the rights of others during both curricular and extracurricular school programs;
- be present and on time for all scheduled activities;
- dress in a way that is appropriate and responsible;
- refrain from inappropriate behavior, including disruptive actions such as the use of profanity, obscenity, and/or demeaning remarks;
- safeguard the property of the school and protect the community’s investment in it;
- refrain from cheating or plagiarizing on any assigned schoolwork; refrain from cheating, plagiarizing or receiving assistance on any tests; and
- follow School Board policies and regulations.

Student Dress Code

Student dress is an important factor in maintaining a positive educational environment. The School Board and school division staff rely on parents and students to support the division’s emphasis on safety and avoiding disruptions in the learning environment. A student’s dress and appearance should not cause disruption, distract other students from their school work, or compromise health or safety. This dress code applies to all school functions. Note: Principals can make exceptions to the student dress code at their discretion to account for special events.

1. For health and safety reasons, appropriate footwear, as determined by the building principal, must be worn at all times.
2. Skirts, dresses, jumpers, and shorts must completely cover the pelvic area and extend to the mid-thigh at all times, including while students are standing, sitting, or engaging in physical activity.
3. Clothing should not expose the student’s midriff, chest, or private areas at any time.
4. Sleeveless garments must have 2 inch straps and not expose undergarments. Spaghetti straps, tube tops, halter tops, camis, and tank tops may be worn under tops, shirts and blouses that have at least 2 inch coverage across each shoulder.

5. Yoga pants and leggings may be worn with tops that provide additional coverage of the pelvic area.
6. Pants and shorts must be worn and secured to prevent the student's undergarments from being exposed, to prevent the waistband from sagging below the student's hips, and to prevent the garment from dragging on the floor.

Students **MAY NOT WEAR** the following:

1. Clothing, jewelry, and other personal belongings displaying language or images that are vulgar, lewd, or obscene; that reflect adversely on or disparage another's race, gender, sexual orientation, skin color, religion, national origin, ancestry, or disability; that promote the use of drugs, illegal substances, or alcohol; or that contain threats gang symbols, symbols of groups associated with threatening or violent behavior, or groups that promote the unlawful use of weapons or other criminal behavior.

The principal, with the approval of the division superintendent, has the authority to promulgate school rules consistent with the rules contained herein and to administer such rules. A principal also may seek to obtain a waiver with regard to the assignment of required consequences in light of extenuating circumstances or in order to provide appropriate disciplinary alternatives. The principal, assistant principal, or teacher may suspend the student after giving the student oral or written notice of the charges against him/her, an explanation of the facts as known to school personnel, and an opportunity to present the student's version of what occurred. In the case of any student whose presence poses a continuing danger to persons or property, or whose presence creates an ongoing threat of disruption, the student may be removed from school immediately, and the notice, explanation of acts, and opportunity to present his/her version shall be given as soon as practicable thereafter.

It shall be the responsibility of the student to initiate the effort necessary for making up work, but teachers shall provide such students the opportunity to do so.

Written notice to the student and parent/guardian regarding the requirement to attend an alternative program shall include information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice also shall state that the student is eligible to return to regular school attendance upon the expiration of the suspension and/or is eligible to attend an appropriate alternative education program approved/provided by the School Board during or upon the expiration of the suspension. - length of the expulsion;
- reason for the expulsion;
- rights of the student to a hearing before the School Board;
- availability of community-based programs for education, training and intervention programs;
- whether the student is eligible to return to regular school attendance or to attend an appropriate alternative education program approved by the School Board or an adult education program offered by Hanover County Public Schools during or following the expulsion, and the terms or conditions of such readmission. The parent/guardian of an expelled student is responsible for paying the costs of any community-based educational, training, or intervention programs that is not part of the educational program offered by the school division.
- If the School Board determines that the student is ineligible to return to regular school attendance or to attend, during the expulsion, an alternative education program or adult education program, the written notice shall advise the parents/guardians that the student may petition the School Board for

Such petition will be reviewed by the division superintendent or the School Board. If the division superintendent denies such petition, the student may petition the School Board for review of such denial.

In addition, the School Board may, by regulation, authorize the division superintendent or his/her designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Such regulations shall ensure that, if a determination is made that another disciplinary action is appropriate, any such subsequent disciplinary action is to be taken in accordance with the procedures set forth in Title 22.1, Chapter 14, Article 3 of the Code of Virginia. - Removal of the student from the class is necessary to restore a learning environment free from interruptions and obstructions caused by the student's behavior.
- Teacher and/or administrative interventions have been attempted and failed to end the student's disruptive behavior.

When all the above criteria have been satisfied, teacher removal of a student from class shall be deemed appropriate.

Requirements for Incident Reports

No removal under this Policy shall occur unless two prior written incident reports have been filed with school administrators. Upon removal, the teacher shall file a "Student Removal Form" with school administrators and any other documentation to support the removal including, but not limited to, the previous two incident reports.

Procedures for Written Notification of Student and Parents

The teacher shall provide copies of any incident report and Student Removal Form to the student and his parents and notify them of the opportunity to meet with the teacher and/or school administrators to discuss the behavior and the possible consequences if the behavior continues. Such written notice shall be provided to the parent/guardian within twenty-four (24) hours of each incident. The teacher shall document, in writing, his/her attempts to request and encourage the parents to meet with school administrators and/or the teacher. Such notice and documentation shall be required for each incident report and student removal.

Guidelines for Alternative Assessment and Instruction of Removed Students

The principal shall determine the appropriate placement of a student removed from class by a teacher, and the principal shall establish the length of time (dates) the student shall remain removed from that class. The

principal has several options regarding the placement of a removed student including, but not limited to, the following:

- assigning the student to an alternative program;
- assigning the student to another class;
- sending the student to the principal's office or study hall. If the principal chooses this option, the removing teacher shall provide and evaluate appropriate make-up work for the student;
- suspending or expelling the student. If the principal chooses this option, alternative instruction and assignments, if any, shall be provided according to School Board policy and, in the case of students with disabilities, in accordance with federal law; and
- returning the student to class. (See procedures below.)

In all cases, and with any of the options, the removing teacher shall provide assignments for the student and evaluate the removed student's work to ensure the student's continued access to required curricula.

Procedure for the Student's Return to Class

The principal shall determine, after consultation with the teacher, the duration of the student's removal from class. The principal shall notify the teacher of the decision to return the student to class. The following procedure shall apply if the teacher disagrees with the principal's decision to return a student to the class:

- The teacher and principal shall discuss the teacher's objection to returning the student to class and the principal's reason for returning the student.
- The teacher, after meeting with the principal, may appeal the principal's decision to the division superintendent or his/her designee within one (1) school day. The incident reports and removal form must accompany the appeal. After discussion with the principal and teacher or receiving their written comments, the decision of the division superintendent or his/her designee shall be final. The decision shall be made within forty-eight (48) hours of the teacher's appeal. During the appeal process, the student shall not be returned to class, and the principal will determine an appropriate placement for the student.

Once the decision has been made to return the student to class, the teacher and principal shall develop a plan to address future disruptive behavior.

Other Provisions

The principal shall ensure that students removed from class under this Policy continue to receive an education in accordance with School Board policies. Application of this Policy to students with disabilities shall be consistent with federal and state law and regulations as well as School Board policy regarding students with disabilities.

This Policy does not limit or restrict the ability of School Board employees to apply other policies, regulations or laws for maintaining order in the classroom.

Search and Seizure

To maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel, school authorities may search a student, a student's locker, a student's automobile, and electronic devices a student possesses and/or uses and may seize any illegal, unauthorized, or contraband materials discovered in the search, consistent with applicable law.

Lockers and other storage facilities made available to students for temporary storage of their personal possessions remain under the joint control of students and the school administration. The school administration has the right to search lockers, desks, and other storage facilities for items which violate law, school policies and regulations, or which may be harmful to the school or its students. Lockers and other storage facilities are subject to periodic searches for any reason at any time without notice, without student consent, and without a search warrant.

To ensure a drug-and-alcohol-free learning environment for students and staff, school officials may, at their discretion, request assistance from a variety of available resources, including the School Resource Officers and DARE Officers, intervention counselors, the Hanover County Health Department, and the active and passive canine teams coordinated by the Hanover County Sheriff's Office.

The school administration also has the right to search any student when there is a reasonable basis to believe that the student possesses an item which violates law, school policies and regulations, or which may be harmful to the school or its students. In no event shall strip-searches of students be conducted.

At times, at the principal's discretion and in accordance with School Board policy and all applicable law, metal detectors may be used to assist school staff in ensuring the safety of students, school staff, and guests.

The student's individual right to privacy and freedom from unreasonable search and seizure is balanced by the school's responsibility to protect the health, safety, and welfare of all persons within the school community. Should illegal materials be found during a search, law enforcement officials will be notified.

Extracurricular Activities

Extracurricular activities are those activities that supplement the regular school curriculum, do not carry credit towards graduation, and are joined voluntarily by students. Extracurricular activities are generally developed according to the needs and interests of students and may take the form of special interest groups, honor societies, publications, athletic teams, and other extensions of classroom work. All extracurricular activities are designed to promote character building qualities of participation and leadership. All school rules and regulations are in effect during extracurricular activities, whether held on campus or away from school. (Certain other extracurricular activities can be considered co-curricular and relate to a culminating activity directly related to classroom instruction like choral or band concerts/presentations.) Co-curricular activities are included in the extracurricular regulations. Students are not permitted to participate in organizations and engage in related activities to the detriment of their classroom work. All student organizations and extracurricular activities are under the supervision of the school principal or his/her designee and are officially recognized and sanctioned by the Hanover County School Board.

Students on long-term suspensions (more than 10 days) for violations involving the use and/or possession of alcohol and/or illegal drugs are not allowed to participate or attend extracurricular activities for the period of the suspension **AND** for a period of 60 calendar days during which school activities take place from the date of the suspension, including summer vacation and school holidays. Long-term suspensions cause the student to lose participation privileges during that period, as well.
3. Each coach/sponsor will establish team/club rules which will be distributed and discussed with participants prior to the beginning of the activity. Students are expected to comply with team/club rules and could forfeit their eligibility through noncompliance.
4. Students must attend all scheduled classes or an approved school activity on the day of competition/activity to be eligible to participate in extracurricular activities on that day. The principal or his/her designee may make exceptions to this standard for students with extenuating and/or unusual circumstances.
5. Students assigned detention by teachers and/or administrators must report the detention to the coach or sponsor. The coach or sponsor will determine if any additional action is to be taken concerning the student's participation in the scheduled activity.

Eligibility Relative to Court Disciplinary Action(s)

The student may appeal to the principal for reinstatement in other activities the semester following the incident.
4. Students found guilty or "not innocent" of any felony charges may be denied participation in extracurricular activities.

REGULATION 7-3.1(A) REPORTING DATA

Generally

Virginia Code §§22.1-65 and 22.1-280.1 require that the Virginia Department of Education collect information on crime, violence and substance abuse that takes place on public school property, on school buses or at school-sponsored events.

Reporting Procedures

As required by Virginia Code §§22.1-65 and 22.1-280.1, the principal of each school shall collect and maintain information on the events which occur on school property, on a school bus, or at a school-sponsored activity, and shall report the information semiannually to the division superintendent on dates established by the division superintendent. The division superintendent shall submit annually to the Virginia Department of Education, on forms provided by the Department, an aggregate report of such incidences by the last day of October or at other times as prescribed by the Department.

Amended: June 24, 2004

REGULATION 7-3.1 (B) PROCEDURES FOR QUESTIONING OF STUDENTS BY THIRD PARTIES

Principals are to allow a child protective services worker with proper identification to interview a student who is an alleged victim of abuse and/or neglect. A private setting should be provided. Parental notification is the responsibility of the Department of Social Services and should not be done by school personnel.

Law enforcement officers may question students who are witnesses to a crime or victims of a crime during the school day, on school grounds, without the permission of the parents or guardian, provided that the law enforcement officer ascertains that the student is capable of consenting to, and the student does consent to, the interview. Student consent is not necessary when a law enforcement officer has a warrant for the arrest of a student. When a law enforcement officer makes contact with, or is contacted by, the school principal or his designee concerning the questioning of a student as a witness or victim, the following procedures should be followed:

1. The principal shall make an attempt to contact the parent or guardian of the student.
2. The student shall be called or escorted to the office by the principal. Under dangerous circumstances, the principal may ask the law enforcement officer to accompany him to the classroom to escort the student to the office.
3. A private place shall be provided for the conference/interview. The parent, child, and/or law enforcement officer may request that a staff member be present as an observer while the student is being questioned.
4. If the law enforcement officer removes the student from the school grounds, the principal shall contact the parent or guardian of the student and the division superintendent's office immediately.

When an incident occurs on school grounds during the school day that is potentially a crime under the law of Virginia, the principal should contact either the resource officer or the Hanover County Sheriff's Office immediately. The Sheriff's Office will follow all appropriate legal procedures in terms of advising students of their rights and conducting a thorough investigation. The principal should follow applicable School Board policy according to the *Code of Student Conduct* in determining the involvement of a student or students in the incident and the type of disciplinary action to be taken on the part of the school.

Principals are authorized by the School Board to recognize that certain misconduct that may constitute just cause for suspension or expulsion may also constitute probable cause that a state or federal law has been violated. A principal shall impose penalties provided by School Board policy for misconduct and shall seek through the appropriate legal means criminal adjudication of the misconduct.

School administration and law enforcement officials will make every effort to work cooperatively with the least possible disruption to either the schools or the Sheriff's Office.

REGULATION 7-3.1 (C) USE OF METAL DETECTORS

Weapons or explosives of any kind are prohibited on school property including school buses or vehicles and at school bus stops, in school buildings or at school-related functions. Possession of weapons or explosives is a violation of School Board policy, federal and state law and will subject an individual to disciplinary action and possible criminal penalties. The administration possesses the authority to take all reasonable, necessary and proper steps, including but not limited to the use of stationary or mobile metal detectors provided by law and School Board policy and regulation to safeguard students, employees and property of the Hanover County School Board. The purpose of the metal detector scan is to prevent and deter individuals from carrying weapons and explosive devices onto School Board property or into school-sponsored events/activities. At all times, the degree and nature of the inspection are not to exceed that which is necessary to allow staff to discharge their responsibility in ensuring the safety of persons and property.

1. The division superintendent or building principal in a non-delegable duty shall approve the use of metal detectors in school, on school property or in preparation for or during specific school activities at sites other than school division property.
2. Only personnel trained in the use of metal detectors shall be authorized to conduct metal detector screenings. Training for personnel shall be arranged through the division superintendent's office.
3. Signs shall be posted to notify all persons that, as a condition of entrance to the school or school-related activity, they will be required to pass through or submit to a metal detector screening.
4. When a metal detector is being used, all individuals who wish to enter the school or school-related activity shall use only the facility entrances designated.
5. School officials may search a particular individual(s) when there is a reasonable assumption to believe that the individual(s) is in possession of weapons or explosives.
6. If a metal detector activates on an individual, the individual will have the option of removing the item which caused the alarm and being scanned with a hand-held wand, or receiving a refund and exiting the premises. Individuals failing to comply with the safety procedures prescribed for Hanover County Public Schools athletic events will be refused entry.
7. Any briefcase, knapsack, purse, parcel or other package causing the activation of a metal detector shall be subject to inspection.
8. All property removed from a person as a result of this procedure and not defined as contraband shall be returned to the person. Property which is defined as contraband, even though it may not have been capable of activating the metal detector, shall be confiscated and turned over to the Hanover County Sheriff's Office or other appropriate agency for proper handling. Any contraband seized by school personnel pursuant to this regulation may be admissible in any subsequent criminal proceeding. The student or employee in violation of the policies, rules and regulations of the Hanover County School Board shall be disciplined in accordance with the rules of the regulations of the School Board, regardless of whether criminal proceedings are pursued.

Any student or employee who refuses to cooperate with personnel performing their duties under this regulation may be subject to discipline in accordance with School Board policy and regulation and required to leave school property. Any person who refuses to cooperate with personnel performing their duties under this regulation shall be required to leave school property.

POLICY 7-4.1 EXTRACURRICULAR ACTIVITIES: GENERALLY

Generally

Many student activities are extracurricular and supplement the regular school curriculum. Extracurricular activities are voluntary and do not carry credit toward graduation. They take the form of special interest groups, honor societies, athletic teams, and other extensions of classroom work. All extracurricular activities are designed to promote character, building qualities of participation and leadership ability. Extracurricular activities and the eligibility requirements shall be approved by the division superintendent and School Board as required by Virginia's accreditation standards. All student organizations and activities shall be under the direct supervision of the school principal or his designee. They should be evaluated periodically to ensure that interruptions of the instructional programs are avoided. Students should not be permitted to engage in such organizations and activities if doing so is a detriment to their classroom work.

Categories

Extracurricular activities are divided into four general categories:

1. Interscholastic, intramural, and extramural athletics.
2. Activities stemming directly from classroom studies: examples include the student government, musical productions, dramatics, debate, the school newspaper and literary publications.
3. Activities designed to promote interest in academic achievement and/or specific subject areas: examples include the National Honor Society and subject matter organizations.
4. Activities which promote general educational goals and are school-oriented: examples include service and special interest clubs.

Supervision

Each Hanover County Public School administration shall appoint members of the faculty to serve as sponsors for each activity. The sponsor shall be responsible for the guidance and general supervision of the activity and shall ensure that all actions conform to School Board policies and regulations.

Financial Support

The extracurricular activities named in categories 1 and 2 above may receive partial financial support from the Hanover County School Board, consistent with applicable law. Transportation may be provided, or the cost of transportation may be paid from appropriated funds. An estimate of funds required for each activity shall be submitted for approval. This estimate shall be submitted by the sponsor of the activity for inclusion in the individual school budget.

The extracurricular activities covered in categories 3 and 4 should be financially self-supporting. School transportation for these activities, however, may be requested. If it cannot be provided, then vehicular transportation may be by commercial means or by private car under regulations established for such use.

Permission by School Principal

The actions and activities of each organization must be approved by the school principal.

Parental Permission

In each instance when an organization schedules an activity away from school, parents will be notified and written permission obtained when appropriate.

Evaluation and Approval

The division superintendent or his designees shall periodically evaluate the extracurricular activities program to ensure compliance with all applicable law, including Virginia accreditation standards.

Restrictions

The School Board authorizes each school principal to work out a point system regulating and limiting participation of individual students in activities and organizations.

Compliance - Virginia High School League and Middle School Council

All athletic, forensic, debating, public speaking, reading, spelling, and school publication activities shall be conducted, where applicable, in strict accordance with the rules and regulations established by the Virginia High School League or the Middle School Council. In addition, students must meet county academic standards.

Academic Standards for Students Participating in Interscholastic Activities

All students participating in interscholastic competition in athletics, forensics, debate, public speaking, and school publications shall meet, where applicable, the eligibility requirements of the Virginia High School League or the Middle School Council and the following standards:

1. The student shall have passed at the end of the semester immediately preceding that in which he desires to compete not less than five (5) subjects or their equivalent offered for credit, either for graduation or completion of the IEP program. Semester grades will be used to determine eligibility at the conclusion of each semester and deficiencies may be made up only by work recognized by the Virginia Department of Education. Second semester grades for one unit of credit will be defined as the annual grade. Second semester grades for one-half unit of credit will be defined as the semester grade.
2. In the event that a student does not earn passing grades for five (5) subjects or their equivalent, the student may remain eligible to participate if all of the following requirements are met: (a) the failing grade is received in only one subject, (b) a C average is earned for the semester for all remaining subjects, and (c) the student is making normal progress towards graduation or completion of an IEP. Semester grades will be used at the conclusion of the second semester. The principal and a panel from the guidance department shall determine if a student meets the preceding standards.
3. All exceptions to the preceding standards requested because of hardship shall be governed by the Exception Regulations of the Virginia High School League.

Athletics

Interscholastic athletic programs shall be available to all eligible high school students. Interscholastic athletic activities shall be conducted in accordance with the rules of the Virginia High School League as approved by the School Board. The primary consideration in all decisions regarding student athletics shall be the safety, health and welfare of the student. The School Board may provide partial financial support and transportation and shall approve any new interscholastic athletic programs.

Cheerleading is an interscholastic athletic program in all high schools in Hanover County Public Schools. Therefore, all cheerleading including sideline cheering and competitive cheering shall be conducted in accordance with the rules of the Virginia High School League (VHSL) as approved by the School Board.

Elementary Schools

POLICY 7-4.5 CLUBS AND STUDENT ORGANIZATIONS

Generally

Students shall be given opportunities to join various clubs and organizations in the Hanover County Public Schools. Such organizations may meet on school premises during non-instructional time. All activities not specifically approved by the division superintendent or school principal are prohibited. Furthermore, club initiations which embarrass, ridicule, physically abuse or intimidate students will be prohibited.

Student-Initiated Organizations

Curriculum-related student organizations serve as an extension of the regular school curriculum. Their function is to enhance the participants' educational experience and supplement the course materials within the educational program of the schools. The activities of these organizations should bear a clear relationship to the regular curriculum. Student organizations meeting these criteria and approved by the principal shall be deemed to be officially recognized, school-sponsored student organizations.

Secondary school students are also permitted to organize and conduct meetings of non curriculum-related organizations to pursue activities outside of the school curriculum, subject to the provisions of this Policy. Such organizations must be student initiated and directed, and school personnel, parents and any other persons who are not students enrolled in the school division are prohibited from directing, controlling, conducting or regularly attending the meetings of such organizations, except that the faculty sponsor(s)/supervisor(s) must attend all meetings. Non curriculum-related student organizations that are student-initiated shall not be deemed to be school sponsored or endorsed. The fact that such organizations are permitted to conduct meetings under this Policy shall not constitute an expression of school division support for the purposes of such organizations or the content of any meetings thereof.

Membership

Membership in all student-initiated organizations shall be open to and limited to all students currently enrolled in the sponsoring school on a voluntary basis. These student organizations may establish academic qualifications for membership where necessarily related to the purposes of the organization. No student shall be denied membership on account of his race, color, national origin or religion.

Curriculum-related student organizations shall be sponsored and supervised by one or more of the members of the school faculty and approved by the principal. Faculty sponsors shall participate in the supervision and direction of all activities of the organization and shall attend all meetings.

Non curriculum-related student organizations that are student-initiated shall not have a faculty sponsor. However, a member of the school's professional staff shall attend every meeting or activity of such organizations in a non-participatory capacity for purposes of general supervision. The organization shall be responsible to assure the presence of a staff member for its meetings.

No school employee shall be compelled to attend a meeting of any student organization if the content of such meeting is contrary to the beliefs of that school employee. School employees present at any meeting of a non curriculum-related student organization which includes religious worship, prayer or practice or is identified as having a religious purpose shall attend in a non-participatory capacity only.

Meetings of Student Organizations

All student organizations shall have the right to meet on school premises during non-instructional time as designated by the school principal. No student organization shall be denied equal access to school facilities during designated meeting times on the basis of the religious, political, philosophical or other content of the speech at the meetings of such organization. No public funding or support shall be extended to any non curriculum-related student organization other than the opportunity to meet on school premises on an equal basis as other student organizations.

The principal of each school shall develop guidelines and rules concerning the procedure for scheduling meetings of student organizations and setting the times and facilities which are available for such meetings. Meeting times shall be limited to non-instructional time before or after regular classroom hours or during established activities periods. These guidelines and rules shall be made available to all students. Student organizations wishing to conduct meetings under this Policy must make application to the principal for permission in accordance with school division procedures.

Compliance with Law and Policy

Student organizations shall not engage in any activity which is contrary to law, School Board policy or school rules; which disrupts or clearly threatens to disrupt the orderly operation of the school; or which would adversely affect the health, safety or welfare of any students or staff members. Failure to comply with these provisions shall be grounds for disciplinary action.

- b. The signed statements acknowledging the receipt of concussion training materials shall be valid for one calendar year and will satisfy the concussion training requirements for all of a student-athlete's extracurricular physical activities for a calendar year. The principal or his/her designee will provide the CMT with a written record of the signed statements for all persons receiving the school's concussion training materials.

5. Removal from Extracurricular Physical Activities and Gradual Return to Sport Progression Program

When a student-athlete is suspected of sustaining a concussion by the athletic trainer, coach, or member of the school staff, in practice or during a game, that student will be removed from the activity at that time. Once removed from play, the student-athlete in question will be evaluated and the concussion management plan shall be implemented as outlined below:

- a. An evaluation/sideline assessment of student-athlete will be conducted:
 - If there is a Licensed Health Care Provider on-site, he/she shall evaluate the student-athlete at the time of removal, utilizing a standardized concussion sideline assessment instrument (e.g., the Sideline Concussion Assessment Tool (SCAT2), the Standardized Assessment of Concussion (SAC), or the Balance Error Scoring System (BESS))
 - i. If the Licensed Health Care Provider's evaluation determines that the student-athlete is suspected of having sustained a concussion, that determination is final. The student-athlete shall not be allowed to return to any activities (conditioning, practices or game) that day and may not return to any activities until evaluated and cleared by a Licensed Health Care Provider.

- ii. If the Licensed Health Care Provider's evaluation determines that the student-athlete is **not** suspected of having sustained a concussion, the student-athlete may resume the activity.
- If there is no Licensed Health Care Provider available, the coaching staff must act more conservatively. The student-athlete will be removed from the activity immediately. The athlete will not be allowed to return to any activities (conditioning, practices or game) that day and may not return to any activities until evaluated and cleared by a Licensed Health Care Provider.
- b. A member of the coaching or school staff shall contact the student-athlete's parent immediately to notify him/her of the injury. If the student-athlete has been removed from the activity, the staff member also shall provide the parent with the HCPS Concussion Medical Evaluation Form (to be completed by a Licensed Health Care Provider), written information on the Gradual Return to Sport Progression Program, and a chart of signs and symptoms of a concussion.
- c. The student-athlete will begin the Gradual Return to Sport Progression Program when:
 - The student-athlete has received written medical clearance (using a HCPS Concussion Medical Evaluation Form) from a Licensed Health Care Provider; and,
 - The student-athlete no longer exhibits any signs or symptoms consistent with a concussion (asymptomatic).
- d. Returning to play:
 - Once a Licensed Health Care Provider has approved a student-athlete's return to play, the Athletic Trainer will begin to implement the Gradual Return to Sports Progressive Program for the student-athlete. (Middle school student-athletes must report to the Athletic Trainer at the student's corridor high school.)
 - The student-athlete must progress through each step of the program as long as he or she remains asymptomatic. The student-athlete's progress will be monitored by the Athletic Trainer. The student-athlete's progress through each step will take at least 24 hours, and progression through the entire program takes a minimum of 5-7 days to complete, depending on the nature of the sport. The student-athlete may resume full game participation upon completion of the program, provided concussion symptoms do not return. A return of concussion symptoms indicates inadequate recovery from the concussion. If concussion symptoms return during the student-athlete's progression through the program, the student-athlete may not progress further in the program until he/she is asymptomatic again for 24 hours. Once the student-athlete has been asymptomatic for 24 hours, he/she must repeat the last step in the program the student-athlete completed.
- e. The role of the Athletic Trainer will be to frequently monitor and evaluate the student-athlete from the moment of the injury until return to play. This will include a daily re-evaluation of the student-athlete, supervision in the gradual return to sport progression program, and providing final return to play clearance. (See chart below.)

- f. The coach and/or Athletic Trainer of a student-athlete may elect not to allow a student-athlete to return to extracurricular physical activities, even after the production of written medical release from the student-athlete's licensed health care provider, if the coach and/or Athletic Trainer observe signs and symptoms of concussions.
6. Helmet Replacement and Reconditioning
- a. All helmets used in school physical activities must conform to the National Operations Committee on Standards for Athletic Equipment (NOCSAE) and must be certified as conforming by the manufacturer at the time of purchase.
- b. Reconditioned helmets which have been purchased must be recertified as conforming to the NOCSAE by the reconditioner.

An Authorization and Permission for Administration of Medication Form must be completed by the parent. The physician's order and medication label must agree.
3. Only a one (1) week or less supply of medication should be brought to school unless medication is taken on a daily basis throughout the school year. Unused medication should be picked up by the parent or legal guardian.

Administration of Medications by Unlicensed Assistive Personnel

Hanover County Public Schools shall allow the administration of medications to students in accordance with a physician's instructions pertaining to dosage, frequency, and manner of administration and with written authorization of a parent by an employee not licensed by the boards of nursing or medicine, in accordance with school board regulations relating to training, security and record keeping. Training for such persons shall include but not limited to medical terminology and abbreviations (including definitions and or descriptions), an overview of medications, how to maintain aseptic techniques, what must be addressed prior to administering medications, general medication administration procedures, route-specific medication procedures, emergency protocol for medication related reactions, safe storage of medications, and a review of all forms needed for the safe and efficient administration of medication. The training program administered by school health services, will be accomplished through a program by the local school boards, in consultation with the local departments of health.

Epinephrine

Parents of students with known life-threatening allergies and/or anaphylaxis are expected to provide the school with all necessary medications for implementing the student's specific order(s), along with written instructions from the student's health care provider for handling anaphylaxis, on an annual basis.

The contents should periodically be inspected through the clear window of the auto-injector. The solution should be clear; if it is discolored or contains solid particles, replace the unit.

Each school should maintain documentation that stock epinephrine has been checked on a monthly basis to ensure proper storage, expiration date, and medication stability.

The school division shall maintain a sufficient number of extra doses of epinephrine for replacement of used or expired school stock on the day it is used or discarded. Expired auto-injectors or those with discolored solution or solid particles should not be used. They should be discarded in a sharps container.
